

State-of-the-art, Natural Anabolic Augmentation Matrix †

TAURO-TEST™

State of the art, natural Anabolic Augmentation Matrix offering natural hormone support, potent estrogen control in our best selling T and GH boosting formula.

Tauro-Test is the hormone powerhouse from Project AD. Featuring Testobullism, a powerful matrix of 5 scientifically proven ingredients that can elevate Luteinizing Hormone up to 700% above baseline levels and free testosterone from sex hormone binding globulin (SHBG), it's perfect for hardcore athletes.

Far more than a powerful testosterone amplifier, **Tauro-Test** also contains the Estocut matrix for estrogen reduction, cAMP for thyroid activity and the breakdown of fat and secretrophin for enhancing GH levels. The result will be a significant reduction in bodyfat levels and profound increase in definition and muscle density.

Whilst other products on the market wish for the best in terms of compound uptake and utilization, **Tauro-Test** is the first product on the market to implement Tauro-Drive: a unique delivery system that ensures optimal absorption of the formula making sure it delivers on its promise for extreme gains.
